How to Determine a Parcel ID / PIN

On the application, the Parcel ID/PIN must be listed for the property. This information is also known as the Tax ID and may be located by going to the appropriate county's GIS website. Other useful information may be found on the above websites such as property size, date platted or lot number.

Ashe <https://gis.ashecountygov.com/maps/default.htm>
Watauga <http://tax.watgov.org/WataugaNC/maps/mapadv.aspx#2>

Register of Deeds

The Register of Deeds in the appropriate county should be contacted if:

- 1) The lot's parcel ID/PIN cannot be found after searching the above GIS website for the appropriate county.
- 2) The date the property was platted cannot otherwise be determined.
- 3) A copy of the existing survey plat for the property needs to be obtained. If the survey plat is still unavailable through Register of Deeds, then Tax Mapping for the appropriate county will need to be contacted to obtain a copy of the property schematic.
- 4) A copy of a right of way or a copy of easement needs to be obtained.
